{mandatory_inclusions}	Brand and drug context, indication, global market scope, target audience, chronic migraine burden, preventive treatment education, safety and monitoring language, fair-balance language, and MLR review readiness.
{tone}	Scientific, balanced, specialist-facing
{budget}	\$90,000
{timeline}	12 weeks

2. Product Education

Template Name

Product Education Campaign-Content Brief

section_id

product_education_campaign_content_brief

Fill-in Variable	Filled Value
{campaign_name}	Zoflevrix Product Education Initiative
{brand}	Zoflevrix
{drug_name}	Zefranova

Fill-in Variable	Filled Value
{therapeutic_area}	Neurology
{markets}	Global
{primary_audience}	Neurologists and Headache Specialists
{education_goal}	Educate HCPs on Zoflevrix's clinical rationale, chronic migraine prevention context, patient-selection considerations, treatment persistence, acute medication-use reduction goals, safety-monitoring needs, and communication approach for adult migraine care.
{product_message_theme}	Evidence-led product education for once-daily oral Zefranova in chronic migraine prevention.
{deliverables}	Email, Digital Detail Aid, Congress Poster, Patient Leaflet
{channels}	HCP email, digital detail aid presentation, congress education setting, patient support distribution, and downloadable medical resource.
{mandatory_inclusions}	Disease-state context, product education framing, patient-selection considerations, preventive therapy goals, safety monitoring, adverse-event awareness, fair-balance language, and medical review disclaimer.
{tone}	Educational, scientific, clear
{budget}	\$90,000
{timeline}	12 weeks

3. Launch Campaign

Template Name

Product Launch Campaign-Content Brief

section_id

product_launch_campaign_content_brief

Fill-in Variable	Filled Value
{campaign_name}	Zoflevrix Global Launch Readiness Campaign
{brand}	Zoflevrix
{drug_name}	Zefranova

Fill-in Variable	Filled Value
{therapeutic_area}	Neurology
{markets}	Global
{primary_audience}	Neurologists and Headache Specialists
{launch_objective}	Establish a launch-ready global communication framework that introduces Zoflevrix to neurology specialists while supporting clinical credibility, safety readiness, consistent messaging, and MLR-aligned content execution.
{positioning_theme}	A specialist neurology brand focused on chronic migraine prevention, patient functioning, treatment persistence, and balanced safety communication.
{key_message_theme}	Supporting confident clinical conversations in chronic migraine prevention for adults.
{deliverables}	Email, Digital Detail Aid, Congress Poster, Patient Leaflet
{channels}	Launch email, digital detailing platform, congress engagement, HCP portal, patient education setting, and regional adaptation toolkit.
{mandatory_inclusions}	Brand and drug details, indication, target audience, launch context, chronic migraine prevention framing, safety language, fair balance, and MLR review requirements.
{budget}	\$90,000
{timeline}	12 weeks

4. Patient Support

Template Name

Patient Education and Support Campaign Brief

section_id

patient_education_and_support_campaign_brief

Fill-in Variable	Filled Value
{campaign_name}	Zoflevrix Patient Education and Support Campaign
{brand}	Zoflevrix
{drug_name}	Zefranova

Fill-in Variable	Filled Value
{therapeutic_area}	Neurology
{markets}	Global
{patient_audience}	Adults living with chronic migraine and their caregivers
{patient_need}	Patients need clear and supportive information about chronic migraine burden, preventive care expectations, treatment routines, symptom tracking, safety awareness, acute medication-use conversations, and questions to discuss with their neurology care team.
{education_goal}	Help patients and caregivers understand the chronic migraine prevention journey, monitoring needs, side-effect awareness, adherence importance, symptom tracking, and the role of ongoing conversations with healthcare professionals.
{support_resource}	Patient Leaflet supported by HCP-directed Email, Digital Detail Aid, and Congress Poster content for consistent education and patient-facing communication.
{deliverables}	Email, Digital Detail Aid, Congress Poster, Patient Leaflet
{channels}	Clinic handout, HCP-shared patient resource, patient support setting, email follow-up, downloadable PDF, and congress support material.
{tone}	Supportive, clear, empathetic
{budget}	\$90,000
{timeline}	12 weeks

5. Congress Engagement

Template Name

Congress Engagement Campaign-Content Brief

section_id

congress_engagement_campaign_content_brief

Fill-in Variable	Filled Value
{campaign_name}	Zoflevrix Congress Scientific Engagement Campaign
{brand}	Zoflevrix
{drug_name}	Zefranova

Fill-in Variable	Filled Value
{therapeutic_area}	Neurology
{markets}	Global
{congress_name}	Global Neurology Congress
{primary_audience}	Neurologists and Headache Specialists
{engagement_goal}	Engage neurology specialists with a balanced scientific narrative on Zoflevrix, supporting discussions around chronic migraine burden, patient selection, preventive care goals, treatment persistence, safety monitoring, and patient-centered outcomes.
{scientific_focus}	Chronic migraine prevention, monthly migraine-day reduction, treatment persistence, patient-reported outcomes, acute medication-use patterns, functional burden, responder characteristics, and safety monitoring.
{key_message_theme}	Advancing scientific exchange in chronic migraine prevention through evidence, safety, and patient-centered neurology care.
{deliverables}	Email, Digital Detail Aid, Congress Poster, Patient Leaflet
{channels}	Congress booth, poster session, QR-enabled evidence access, HCP email, digital detail follow-up, and patient education distribution.
{evidence_requirements}	Clinical review report, research papers, journal-style evidence summaries, safety guideline document, market insight reference, and MLR compliance report.
{mandatory_inclusions}	Evidence source mapping, safety and monitoring language, claim substantiation, balanced benefit-risk framing, fair-balance note, global use disclaimer, and MLR readiness.
{budget}	\$90,000
{timeline}	12 weeks

6. Omnichannel Engagement

Template Name

Omnichannel Campaign-Content Brief

section_id

omnichannel_campaign_content_brief

Fill-in Variable	Filled Value
{campaign_name}	Zoflevrix Omnichannel HCP Engagement Campaign
{brand}	Zoflevrix
{drug_name}	Zefranova
{therapeutic_area}	Neurology
{markets}	Global
{primary_audience}	Neurologists and Headache Specialists
{campaign_objective}	Deliver a consistent global engagement journey for Zoflevrix across HCP and patient-support touchpoints while maintaining scientific accuracy, safety balance, and MLR-ready message control.
{content_touchpoints}	Pre-congress Email, Congress Poster, Digital Detail Aid follow-up, patient education distribution, HCP discussion support, and downloadable Patient Leaflet.
{deliverables}	Email, Digital Detail Aid, Congress Poster, Patient Leaflet
{channels}	Email, digital detailing platform, congress booth, congress poster session, HCP portal, patient support setting, and downloadable PDF.
{key_message_theme}	Connecting evidence, safety, and patient-centered neurology communication across the Zoflevrix engagement journey.
